

Ortel.net targets low-end users in Orissa

OUR STATE BUREAU
Bhubaneswar, Dec 14

Ortel.net, the internet services division of Ortel Communications Ltd, has introduced new prices to net the low-end users of in Orissa. The private internet service provider (ISP) has revised its offerings to Rs 250 for 25 hours in a month and Rs 500 for 50 hours in three months.

"With this, we will be able to provide our service to each and every section of the net users in the market" said B P Rath, vice-president of Ortel Communications Ltd. "We plan to launch many variations of the package so as to make it more flexible and cost effective" Mr Rath added.

The vice-president said that the bandwidth will be same as any other home use package. Customers are exempted from making any additional activation charges if reactivated within 15 days of the expiry, no download limit & hence Customers can download any volume of data within the usage period.

Ortel.net has been providing internet through cable through its state of the art Hybrid Fiber Coaxial Communications Network (HFCCN) in the twin cities of Bhubaneswar and Cuttack. ◆
