**Ortel launches
100+ channels**

PNS | Bhubaneswar Pg. 02

Cable TV service provider Ortel Communications Ltd started beaming more than 100 channels with effect from Sunday. Currently, half of the channels are available through a analog format and the rest in digital format. According to a company release customers would have to instal set top boxes to see the channels in digital format,

Reviewing the technology aspects to provide better services to customers, BP Rath, Vice President-Corporate, claimed that the company has always provided the best technological platform to its customers.

The company also plans to provide the set top boxes at minimal cost and distribute its set top boxes through a dealer network. Customers will not have to pay any extra monthly charges for availing Digital Cable Services till March 2007.
